

VOCATIONAL ASSESSMENT PROGRAM

Portland Supported Employment's (Full Life) VOCATIONAL ASSESSMENT PROGRAM is designed to provide comprehensive evaluations of work and job readiness skills pertaining to individuals with barriers to employment. Our 10-day program focuses on providing a diverse vocational setting for our participants, where a wide range of work and social skills can be evaluated. In addition, the program also focuses on providing competitive job placement assistance for each participant upon completion of their assessment period. In short, it's simple: **Full Life is offering a fresh approach to vocational assessments and we want to be your agency of choice as you consider vocational options for the people you serve.**

Full Life is pleased to announce our EXTENDED ASSESSMENT PROGRAM for participants who are assessed as "not employment ready" after completing the initial 10-day assessment. Our extended assessment program is designed to allow clients the extra time that some need to develop their employment skills and be deemed "job ready." At the completion of the second 10-day assessment period participants who are employment ready receive 10 hours of free job development; those who aren't employment ready may choose to continue on for a complimentary 10-day assessment or increase the diversity of their work experience through 10-hours of unpaid employment community locations such as: New Season's, Dollar Tree, Trader Joe's, Zupan's, Burgerville and Hot Lips Pizza.

Our program's cost and structure make it unique from our competitors: ours is community-based, competitively priced, and has end-of-assessment dynamics not offered in other assessment programs. Consider:

- **\$1000 per 10-day assessment (this includes 10 hours of free job development...a \$600 value)**
- **All assessment locations will be community-based.**
- **Full Life will pay all participants minimum wage during all assessment periods.**
- **Full Life will provide 10-hours of free job development services to participants who at the completion of the 10 or 20-day assessment period have assessed as "employment ready".**
- **Participants who are not employment ready after completing the 20-day assessment have the choice of selecting an additional 10-day assessment, or 10 hours of unpaid work experience at two community locations that compliment their employment goals, at no cost to you.**

We feel strongly that this program will greatly enhance the lives of the individuals served. Success fosters success, and together we can make significant, positive impacts on the lives of the people we serve.
